- a) in two Professional Master's programmes at the same time, even at two different Universities, provided that the programmes in question are different;

- c) in a Professional Master's programme and a Postgraduate Specialisation programme at the same time;
- d) in a Professional Master's programme and a PhD programme at the same time.

For points a) and b) above, if attendance requirements are in place for one of the two programmes, enrolment in the second programme is permitted only if the latter does not have any attendance requirements, with the exception of courses for which compulsory attendance is required only for laboratory and internship activities.

For point c), enrolment is permitted subject to assessment by the respective collegiate bodies, which will verify that the conditions for acquiring the knowledge and skills necessary for achieving the training objectives for each programme are met, and that these are compatible with the attendance requirements in place.

Those interested in enrolling in a second course must compulsorily submit, in both institutions, at the same time as the enrolment, the self-declaration required by Art. 6 of Ministerial Decree no. 930/2022 of the MUR.
