

Lidia Angeleri, Jorge Vitória
Università di Verona, 2016/17
Corso di Laurea Magistrale MATHEMATICS

Representation Theory of Quivers

Organization. The course will be complemented by exercise classes held by Jorge Vitória, City University London, during the second and third week of November, and the second and third week of January.

Exercises. As a preparation for the written exam, some exercise sheets will be posted on the webpage of the course starting from October 13. The solutions handed in by the students will be corrected by the tutors Fabiano Bonometti and Alessandro Rapa. Students are encouraged to hand in their solutions. Their work will be taken into account for the final mark.

Exam. The exam consists of a written examination. The mark obtained in the written examination can be improved by the mark obtained for the homework and/or by an optional oral examination. Only students who have passed the written exam will be admitted to the oral examination.

Office hours:

L. ANGELERI: Thursday, 10:30-12:00 or by appointment.

J. VITÓRIA: by appointment.
